

## General check-up

**Author :** admin

Today I made my general medical check-up. Now I'm waiting for the results I hope they would be fine. But ofcourse it's up to God.

Today I had 2 hours of driving lessons from 8 to 10. Right after that I went to the medical clinic to make blood tests.

Thankfully blood taking procedure was fast and painless, it was kind from my mother to address me an hour, so when I went to the clinic I went directly to the lab where they took a blood sample from me.

A little later we went to "Banicharnica" which is a common cheap fast breakfast place here in Bulgaria. And after that we visited few shops and Bought some clothes. Now after a while I'll have to go to the "DSK" bank and send the rest of the money which I owe for my room in the hostel in Holland.

And towards evening I have one more driving lesson. Tomorrow it's my driving practical exam. It's up to God's will if I pass or fail. So I hope that God would be merciful and send his word and grant me that exam, because I know by the word of Christ that without his divine mercy we alone can't do anything.

END-----
